TWD is pleased to offer you a reduced introductory price on three beautiful colors of soapstone. Quarried naturally with absolutely no synthetics, Saratoga Soapstone™ offers a unique, soft color with light flowing veins. When oiled, soapstone exhibits an even more dramatic color variation. Soapstone is practically indestructible, requires almost no maintenance and adds elegance and enduring value to any project. It exudes warmth and softness to the touch. This unique combination has made it the current material of choice for a variety of applications.
